

Project CY 8609

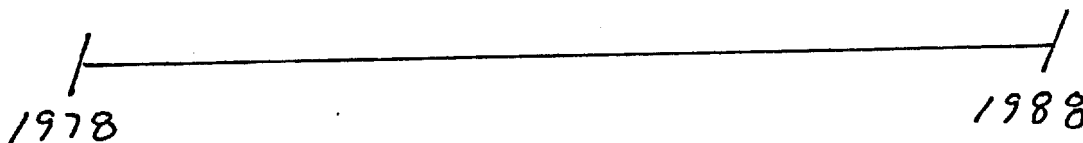

Task

1. Describe the Technical Facility located vic:

SG1A

2. Within the following ten year period determine if and when any "special events" occur:

* Note: If you do find any "special events" - - - subsequent sessions will be focused on each separate "special event."

Component

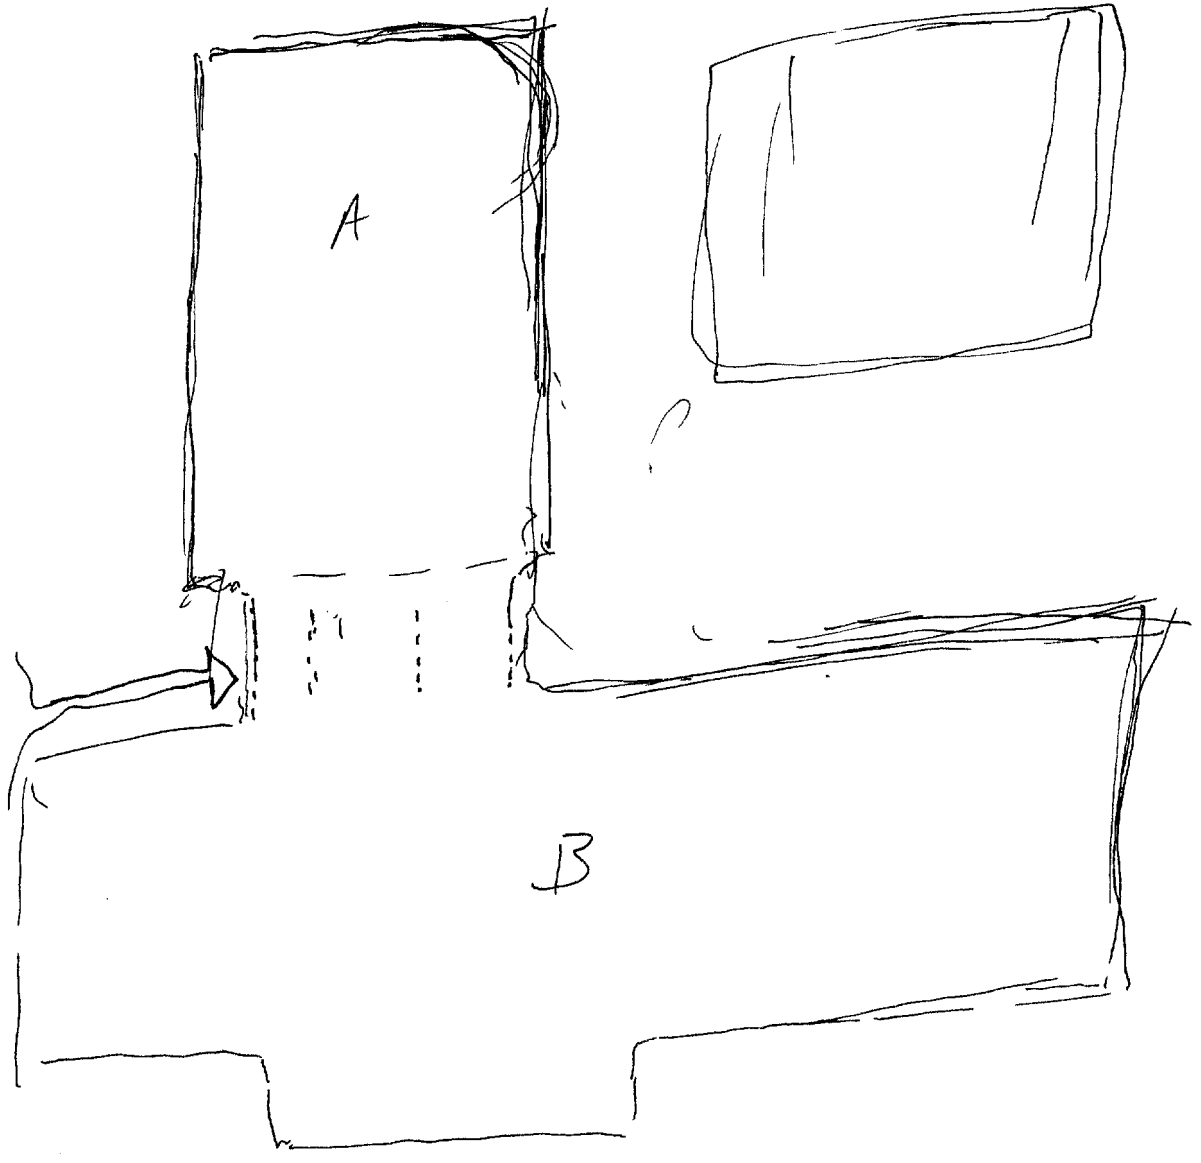

like a
basement

S 4 1/2 deeper than average basement - it's "y'ice" 2 levels down.

S 4 1/2 W. A has more open space inside it. "Like" a workshop or shop area - where things are brought together or analyzed or organized or fashioned.

"Basement" area in red

Basement extends
to connect
further to
lower level
in other
part of
structure

birds
in A

high ceilings

noise -
bays
clanging
choir voices

Sz/k Various projects & activities taking place in A -
perhaps all in some way connected, but at current
level these distinct & separate. Separate.

peeps

drinks
industrious
interested
dedicates
believe in
what they're
doing as far as
they understand
the purpose.

Sz/k Pt. B has a wide variety of activities of an
admin/bureaucratic/other nature. Some are related, some
are distinct. "like" "format unit" idea for some of the
activities.

Basement
weave in
place machine

54 1/2 Spool standard heating/cooling etc. Some mass.
 Equipment involved w/ projects above. 3-5 times as
 tall as a person. Very complex - tubes, pipes, cables
 heat, flux, meters, dials, fail safe, redundant
 circuits, steady operation; not fluctuating - as it fluctuates
 would be disadvantageous to purposes. Human boss
 sound steady. Pass on manual controller. Watches
 dial and makes adjustments in response to order
 from elsewhere in bldg. "Basement" may seem to be
 under part A at least; outcrops passenger
 cubicles; rooms; ~~offices~~

outlines in red

Sense of
looking down
this passage
or tunnel leading
for a long, long
way, into distance
rounded component,
like a pipe or
rail or tube or
cable

people here waiting for whatever to arrive. They use
equipment, some of it of stainless steel, they something to
it, then whatever proceeds on out opposite end

ATC Bc
High
side
table

By way of Analogy - if this were a submarine, it would have all its hatches closed & locked, periscope retracted, and dead in the water on the bottom while all kinds of activity takes place. During attacks, it's like site is "hermetically sealed" to prevent any inking, getting out to outsiders as to a boat taking place.
