1. (S/NF/SK) [Redacted] Using encrypted coordinates (provided), determine [Redacted] during the following windows: August, September, October, November and December 1987. SG1A

2. (S/NF/SK) Source Tasking:

- coordinates read (243200/283668) and ideogram produced

- search the time line again for [Redacted] SG1A

At a certain point in time, estimated to be roughly 1/5 to 1/4 of the way through September, there is a sudden, sharp, ~~very brief outburst of violence~~---shouting, flames, smoke, perhaps explosions, people running here and there, shooting down hill, in an arid, austere region. ~~Somehow involved are fairly large, OD, cylindrical objects with appendages.~~ Vehicles are present, as is anger, excitement, hate, and fear. Strong AOL or AOL/S of ~~combat~~ was suggested. Burning rubber smell is present, as is an old structure. The area is rocky with hills round about. Impression of looking up, ~~seeing an aircraft~~. People involved are ~~non-US~~, located in a non-US area, and are shorter, darker, some with mustaches and perhaps wearing a greenish, brownish sort of uniform.
