SECRET/NOFORN - HANDLE VIA SKEET CHANNELS ONLY

PROJECT SUN STREAK (U)

WARNING NOTICE: INTELLIGENCE SOURCES AND METHODS INVOLVED

PROJECT NUMBER: 8714	SESSION NUMBER: 1
DATE OF SESSION: 20 NOV 87	DATE OF REPORT: 24 NOV 87
START: 1320	END: 1437
METHODOLOGY: CRV	VIEWER IDENTIFIER: 011

1. (S/NF/SK) MISSION: Describe the past event associated with the coordinates 9732/1157.
2. (S/NF/SK) VIEWER TASKING: This session was initiated in Stage 1 with the above coordinates. After describing a structure/land/water interface, the monitor introduced the cue (in Stage 3) "past event should be visible". This cue caused the viewer to change locations. The remainder of the session was dedicated to subsequent perceptions.
3. (S/NF/SK) COMMENTS: 011 initially acquired a structure but, per monitor's instructions, shifted attention away from it to the related event site. Probably more time should have been spent describing the structure site area. The viewer's behavior in Stage 1 was unusual, there was a sort of a tortured look about 011, perhaps as the result of an unexpressed AI. 011 was not able to get a handle on the causal portion of the event; this will be readdressed in the next session.

SESSION SUMMARY

SESSION: 20 NOV 87; 1320HRS-1437HRS

First impressions are of a tall, angular, vertical structure. Focusing on sometime in the past, the impression of a land/water interface becomes evident. There seems to be a large, open body of water and also a closed, or contained body of water. The land appears to rise, with a gentle incline, to a somewhat rolling, flat, open area (see sketch, page 7). The area here is windy, breezy and almost seems desert-like. There are people associated with this location and they seem lost, confused, dazed, in a state of shock. Survival is foremost on their mind. There is a feeling of a life-or-death situation, dehydration and starvation. There is a small group of individuals who have been trained to work together, like freedom fighters or partisans.

Focusing on a "past event" evokes colors of red and orange, something that is large, billowing, cloud-like, rapidly expanding, enveloping.

There is a strong wind associated with this event, and the feeling of dread, fear, confusion, then only darkness. There is also an object associated with this event. It is large, round, curving, hollow, tube-like and colors of yellow and orange can be found inside.
