~~SECRET~~/NOFORN - HANDLE VIA SKEET CHANNELS ONLY

PROJECT SUN STREAK (U)

WARNING NOTICE: INTELLIGENCE SOURCES AND METHODS INVOLVED

PROJECT NUMBER: 8717	SESSION NUMBER: 1
DATE OF SESSION: 09 DEC 87	DATE OF REPORT: 10 DEC 87
START: 1023	END: 1127
METHODOLOGY: SOLO	VIEWER IDENTIFIER: 018

1. (S/NF/SK) MISSION: See attached tasking data.
2. (S/NF/SK) VIEWER TASKING: 018 was briefed just prior to session, and was provided with the individual tasking sheet (attached).
3. (S/NF/SK) COMMENTS: Much more self-discipline and/or practice will be require to succeed in this mode of operation (i.e. Solo); this is particularly true in 018's case.

~~SECRET~~/NOFORN - SKEET CHANNELS ONLY

CLASSIFIED BY: DIA-DT
DECLASSIFY : OADR

SOLO FLIGHT / FREE FLIGHT

COORDINATES: 589281/856562

REQUIREMENT: Access the Target Site at 589281/856562 and identify/describe the new structure(s) of high intelligence interest. Address and respond to the following EEI:

- a. Provide an overview of the Target Site and identify the structure(s) of specific intelligence interest.
- b. Describe the purpose and actual or intended use of the new/recent construction activities at the Target Site.
- c. Provide conceptual drawings in support of your findings.

memorandum

DATE: 9 December, 1987

REPLY TO
ATTN OF: DT-S

SUBJECT: SESSION SUMMARY (C/SS)

SG1J
TO: DT-S (ATTN: [redacted])

1. (S-SS) Statistics: Viewer: 018
Session date: 9 DEC 87
Mode of operation: Solo

2. (S-SS) The perceptions gained in this session were:

a. There were no perceptions whatever about the general location (in the world) of the target site.

b. The general area surrounding the target appears to be flat land which has some unevenness to it, when taken as a very large area.

c. The immediate area around the target contains several very large buildings (see drawing, bottom P. 5), most of which had peaked roofs. These are widely spaced from each other, with large expanses of open space between which is very flat. There were repeated impressions of this entire space being paved or otherwise denuded of vegetation. Between the target structure and a nearby very large structure, there are lines on the ground. I could not tell whether these were roads or RR lines. *find out*

d. Looking for new construction (given in the tasking), I found myself standing on a tall, squarish structure with a flat roof. At the bottom was a broad, white flat area, a portion of which led off at one corner (see drawing, bottom P. 4). I was unable to find out whether the structure I was standing on was the new construction, or whether there was new construction TO it. I had the feeling that something on the flat roof of the structure was important, but every time I tried to get perceptions of it, I could not.

e. Inside the area of "new construction" there was a perception of metallic noises, large round, blunt-ended "things, and cylinders (see drawings, pages 8 and 10).

f. The site's purposes seemed to be mostly for assembly (not manufacture), a little for study, and very little for training.

3. (S-SS) Viewer's critique: There was the constant feel that I was in a "hit and run" procedure: I would "land on" target, get some impressions, then lose it almost immediately. I spent the entire session reacquiring the target rather than staying on it.

INTSNIM SUMMARY: AREA AROUND SITE IS FLAT, UNUSUAL LAND W/ STRUCTURES, ~~WHICH ARE~~ THESE STRUCTURES APPEAR LIGHT IN COLOR, W/ DARKER COLORED ROOFS. THEY DO NOT SEEM TO HAVE USUALLY POINTED ROOFS.

THE TANGST STRUCTURE SEEMS TO BE STRUCTURALLY DIFFERENT: IT IS TALL, SQUARE, SEEMS TO HAVE A FLAT ROOF, W/ POSSIBLY STAIRS ON TOP OF IT. BELOW, AT ITS BASE, IT SEEMS TO BE SITUATED ON A WHITE LOWER "PATCH" AMID THE IRREGULAR SURROUNDING GROUND. THERE SEEMS TO BE SOME SORT OF THIS SQUARE "PATCH" AT AN ANGLE.
