PROJECT SUN STREAK (U)

WARNING NOTICE: INTELLIGENCE SOURCES AND METHODS INVOLVED

CRV Session Procedures Report (S/NF/SK)

```
|Control Number   : 8702|
|Date of Session  : 02Feb87|
|Date of Report   : 02Feb87|
|Source Identifier: 018  |
```

1. (S/NF/SK) Tasking: Monitor granted access to all available tasking data on 28Jan87. (See ops officer files).

2. (S/NF/SK) Session: From a CRV structure perspective, probably the worst session on record for this monitor and source. Source did, however, produce what seemed to be some site-related, pertinent data. (Note: Monitor feels that this source has recently been attempting to work through a very strong PI of impending surgery. Merely objectifying this PI would not improve his performance).

3. (S/NF/SK) Summary: Source described a group of arranged buildings. When cued with "Building C", source immediately produced the word "incomplete". When asked to Stage 5 this word, source then immediately produced the word "wall". Source perceived a large, open area inside of the building with bluish lighting and much "broken plaster associated with a wall. This "broken plaster" was perceived by source to be more for insulation/protection than for structural purposes.

4. (S/NF/SK) Feedback: None provided source.

INTERIM SUMMARY:

IMPORTANT THING POOLS LIKE THE "BUNKER
PLASTER" AREA. THE "BUNKER PLASTER" GIVES THE
IMPRESSION OF BUNKER MORE FOR (INSULATION/PROTECTION/?)
THAN FOR STRUCTURAL PURPOSES. THE OBJECT OF
WHICH IT IS A PART GIVES THE IMPRESSION OF
BEING ~~ONLY~~ A STRUCTURE.

COMPLETELY, IT HAS THE IMPRESSION OF ROUGH, MALE
LABORATORY PERSONNEL-TYPE (ADMINISTRATIVE/
SIGNATURE) ACTIVITIES.
SITS ON 0935 HRS.
