Dirty environment, dirty outside, men work, they're timed, everything is very strict, bells ringing, bells give the signal when to work, when to stop - because its outside and everyone can hear and know what to do.

→ Describe the work

★ RIDING vehicles over bumpy, rocky hills, they're cleaning out, taking care of this area as much as they can. The land is this area does not look good, it was stuffed. The men are here to clear or to take out but they are not here to make it look nice -

I sensed a large city built around ~~at~~ water.

There were high structures and there were trees and more natural as you came away from the city.

I then sensed parked vehicles. I sensed a large entrance to something very natural - large rocks or stones or caves.

At times I sensed I was under the earth. I sensed men working - physical, hard work. I sensed dirt, black sparkling, magnificent dirt.

I sensed a man guard an entrance to something like a cave. I then sensed many entrances. I sensed mining.

I sensed there was a meeting, voting. A large group of men meeting, voting in a very large room. The room was cold, cold. There were only simple chairs. No nice furniture. There was a man who sat higher - facing the other large group of men.

I sensed that the workers - the men doing the physical hard work were only doing what they were told to do.

They were not the planners. The planning is done elsewhere. I had an overwhelming feeling of stripping the land.
