

~~SECRET~~/NOFORN - HANDLE VIA SKEET CHANNELS ONLY

PROJECT SUN STREAK (U)

WARNING NOTICE: INTELLIGENCE SOURCES AND METHODS INVOLVED

-----  
PROJECT NUMBER: 8819                      SESSION NUMBER: 1  
DATE OF SESSION: 31 OCT 88              DATE OF REPORT: 1 NOV 88  
START: 1318                              END: 1423  
METHODOLOGY: SOLO                      VIEWER IDENTIFIER: 018  
-----

1. (S/NF/SK) MISSION: For this initial session, the objective was for the viewer to acquire, describe and conduct a brief exploration of the target area, (depicted in an overhead photo).

2. (S/NF/SK) VIEWER TASKING: Coordinates only.

3. (S/NF/SK) COMMENTS: Fair probability that 018 achieved site contact, (after a tremendous battle with AOLs!), but subsequent monitored session will start from Stage 1--just to make certain.

4. (S/NF/SK) EVALUATION: [ ]

SG1J

TO: DT-S (ATTN: [REDACTED])

1. (S/NF/SK) Statistics: Viewer: 018  
 Session date: 31 OCT 88  
 Start time: 1318  
 End time: 1423  
 Mode of operation: SOLO  
 PI: None  
 AV: None

2. (S/NF/SK) Cuing: 6-digit encrypted coordinates:  
 696910/136160.

3. (S/NF/SK) Results:

a. The target is structures in an area which is dry, somewhat flat country. There is a surprising amount of vegetation present for this climate, and the vegetation which was there appeared to be planted and tended rather than wild.

b. The structures are large and squarish, with what appears to be rounded edges. There are several of them which are similar in appearance.

c. The interior of one of the structures is quite spacious, but well taken up by some pieces of very massive machinery. The machinery is stationary within the structure, but has slow, rhythmic movement in-place of large, massive portions of the machinery. Much of this movement takes place overhead. Most of the machinery is of a dull, light reddish color. The machinery is surprisingly quiet for its size.

d. Stage 6 work revealed that this place (which looked like a foundry or factory) is used for both manufacturing and research, with a little more emphasis on the research (see second scale line, page 10A), and that the products are of a

INTS in summary: SITE is a large structure  
 in open, generally flat land. Inside the  
 structure there is a lot of large  
 machinery. This machinery is stationary  
 BUT ~~works~~ <sup>strongly dynamic</sup> movement-in-place. The  
~~structure~~ <sup>interior</sup> of the structure is quite  
 spacious, but will take up the rest  
 massive machinery. The machinery has a ~~red~~  
 reddish ~~color~~ <sup>color</sup> w/ unsightly (collected)
