PROJECT SUN STREAK

WARNING NOTICE: INTELLIGENCE SOURCES AND METHODS INVOLVED

PROJECT NUMBER:	8904	SESSION NUMBER:	01
DATE OF SESSION:	02 FEB 89	DATE OF REPORT:	02 FEB 89
START:	1121	END:	1151
METHODOLOGY:	CRV	VIEWER ID:	003

1. (S/NF/SK) MISSION: To access and describe a target structure shown in overhead photo imagery.
2. (S/NF/SK) VIEWER TASKING: "Access and describe the target site at encrypted coordinates: 428013/B39461."
3. (S/NF/SK) COMMENTS:
 - a. Inclemencies: None declared.
 - b. 003 accessed only the outside top of the structure. Descriptors of this area were sufficient to prove site contact, and 003 was moved inside the building.
 - c. Due to other scheduling, 003 was not allowed the customary "cool down" time, and had only approximately 45 minutes for the session. Although all EEI was addressed, finer details of the site were not pressed. Due to the map room being occupied, only a rough search was conducted (see rough map, page 9a. of the transcript).
 - d. Summary of Information enclosed.
4. EVALUATION:

Site involves a structure with other structures nearby. Structure of interest is large, flat-roofed, with various different roof levels, and a rounded, ribbed portion associated with it. Somewhere here or nearby is a structure that is open to the air or missing its roof. The surroundings are relatively bleak and austere, suggestive of a desert, with rough hills in the near distance. White is an important color here, and it is bright. There are numbers of people here, engaging in activities that involve cooperation. At least one activity isn't necessarily progressing smoothly. There seems to be hangups with it--having to do with the technical sufficiency of tools/equipment on hand, but also significant shortage of necessary materials and equipment. There are strong negative feelings here, which might also be described as distraught, frustrated, or mild despair. Purposes of the structure involved organizational, administrative, self-contained activity, with people collected together and interacting. "Like" some sort of agency. The people are gathered here together for a synergistic result. There is an "I" concept of the group or organization interacting and cooperating and working together toward a specific ongoing purpose--"like" a planning or directive group. Technical things do go on here, but are not the priority, and are rather in support for the organizational mission. This operation could exist independent of the specific structure--could for example work just as well in some other structure somewhere else. Key activities involve controlling and directing. It is "like" a major headquarters. It does the controlling and directing; other subordinate elements do the leg work. There is primarily a civilian-desk-job sense to this, "like" EPA/FHA/OSHA/etc. There are large areas of people at desks, fluorescent lighting, low conversation, and a generally quiet atmosphere. Impression that business goes on here pretty much as usual--seldom any major upheavals or dramatic changes of events: busy, busy, busy. There is an impression that this is non-US, and in fact located in the Eastern Hemisphere. Slight impression of southwest central Soviet Union.

WORKING PAPER

2 FEB 89

TASKER

1. Encrypted Coordinates: 428013/839461.
2. Tasking: Access and describe the target site at the above coordinates.
3. Required EEI:
 - a. Describe the target structure at the site providing sketches of all physical perceptions.
 - b. Describe the contents of the target structure.
 - c. Describe the key purpose.
 - d. Describe any key activities supporting this purpose.
 - e. Describe the key event associated with the target (i.e. the key event of particular interest to the tasker). Remain open to the possibilities of this key event being in past, present, or future time, and also to the possibility that the event did not/is not/will not occur.
 - f. Through your own search technique, provide a set of map coordinates for the target site. Also note method used, and any perceptions gained.
