SUMMARY OF INFORMATION

The men at the meeting are discussing possible courses of action. The discussions involve lines on maps: divisions/assignments of territories. The men at the meeting represent different interests/organizations. For them to have a meeting is somewhat unusual and is a tricky business. Despite this, all have agreed to a unified approach. The plan has one goal but each man will cause different things to be done in support of it.

The plan will be implemented by each man going back to his organization and tasking subgroups to do specific things. Viewed from the bottom or the outside the actions appear to be disjointed and unrelated but in actuality they are all integral subparts of a larger plan. The idea is to cause purposeful turmoil/ directed chaos.

SG1B [REDACTED] ROLE: Involves paying bureaucrats off to get own people inserted into useful/key positions. Key not meaning high up but rather practical: ie., the form signer, the inspector, etc. He already has people belonging to/sympathetic to his

organization inserted in lower echelons: the trick now is to get them maneuvered into the right positions. This used to be a simple matter of paying the right bribes: now it's not so easy, due to new attitudes/penalties for graft. Now, **SG1B** [REDACTED] is planning to use a combination of coercion and bribery against one targetted high up individual to accomplish what needs to be done.

SG1B [REDACTED] ROLE: His organization's role involves delivering a shipment of automatic rifles somewhere illegally/under the table. These will be delivered by ship. The automatic weapons are black and of foreign (non-US) manufacture.

LNU'S ROLE: Lnu's roles involves banks and the idea of manipulating different currencies. There is also the idea of manipulating stock prices.

Also present at the meeting was the idea that one of the men present would be responsible for making sure that somebody (government official) specific is eliminated or assassinated.
