1. (S/NF/SK) Two remote viewing sessions were conducted on 22 October 1990, to describe the nature and extent of Iraqi-sponsored terrorist activity directed against US and coalition forces in Saudi Arabia. If affirmative, viewers were to determine where when and how this would take place.
2. (S/NF/SK) Remote Viewer 079 perceived no planned terrorist activity will take place "at this time," against US and coalition forces in Saudi Arabia. In an effort to provide indicators of impending terrorist activity, 079 digressed and reported the Palestinian Liberation Organization (PLO) is currently supportive of the US. The "Yemens" (North or South remains unspecified), may be the hot spot of the future. Afghanistan, is viewed as having intention of pushing through its border in a westward direction. Israel will stop its incursions. Iran will remain quiet during the crisis. The United Nations (UN) will force middle eastern countries concerned to politically negotiate among themselves.

(COMMENTS: Which faction of Afghanistan intends to make some sort of incursion in a westerly direction is unknown. No further efforts were made to determine whether the "Yemens" reference is related to Sanaa or Aden. There is no current "Israeli incursion" known to the undersigned. This data was not pursued or refined since it was not mission related.) Viewer 079's summary is attached at TAB A.

3. (S/NF/SK) When tasked to report on the possible imminence of terrorist activities directed against US and coalition forces, 049 described "staging and planning" areas located northwest of Baghdad at, or in the immediate vicinity of Baiji, Tikrit, and Al Fatha. (See strip map attached to 079's summary). Additional descriptions appear to support the concept that the threat is chemical warfare-related. See 049's summary at TAB B.

5. (S.NF/SK) OPS COMMENTS: In a post-session debriefing, 049 stated he did not perceive any imminence of terrorist activity currently directed against US and coalition forces.
