INACTIVE INACTIVE

ENCL 1

* known to be not in it

among other things
spas - leave and
strip - reveals

6

①

- There are three active and three ^{apparent} inactive strips. The active strips are distinguishable by the presence of some form of ~~hanging~~ ^{bulge} or

- The most used strip is L shaped. w/ main runways of N and East; one predominant hangar is at the right angle base - ~~the~~ ~~by~~ An inactive strip about 500 yds west ~~is~~ ~~is~~ present. Inactive shrub is present; a third strip located ~~at~~ ~~at~~ 700 yds west is shaped like an ~~EAST~~ - WEST runway with a perpendicular strip going down.

Below that strip is the most active, legal strip in the form of a cross; east of the cross is an inactive Y strip and east of that is an active legal strip running NNE to SSW

- Aircraft involved in illegal
airdrops are ~~not~~ normally jacked
in the active light - use both
strips - ~~are not~~ take offs are
marked whether aircraft take
off simultaneously, one for
the legitimate strip, one for
the illegal.

- 6 July (1) Strip -

and departures often masked
w/ active, legal flights
when available -

Aircraft positioned
for -

- Shipment is equivalent
of crack/cocaine - biggest
buck for the small payload.
- hash equivalent
from USA.
