WORKING PAPER

Project: 9044
Date: 900702
Time: 1442-1511
Viewer: 018
Session: 01

SUMMARY OF INFORMATION:

1. The requested EEI were:

- a. Determine when the surface transfer of contraband in the form of drugs involving the vessel bearing callsign [REDACTED] will take place.
SG1A
- b. Describe the other vessel(s).
- c. Provide names or callsigns of the other vessel(s).

2. The following information was uncovered in session with Source 018:

The SG1A [REDACTED] will transfer to at least 4 other ships at coordinates 1608N / 7032W. Transfer times and other ships involved are:

- a. 1 JUL 90 (already happened as of session time) to a medium-sized vessele with a possible name/callsign of "ORO NEGRO" or "NEGRITA".
- b. 2 JUL 90 (evening hours) to a large, slow, flat vessel with a possible name/callsign of "BENDAR" or "BENNY DAR...". The drugs will be transferred via hand-to-hand "bucket brigade".
- c. 4 JUL 90 (afternoon hours) to a small yellow & green fishing vessel with a possible name/callsign of "BURGON", "BURGUNDY", "JORGON", "JORGAN", "JORDON", "GORDON", "GORDO" (Probable name: "GORDO". Transfer will be a small amount and will take place via a small very fast "go between" boat. The two ships will be a fair distance apart, and the fishing vessel will wait for 4/5 hours after the transfer is made before moving off.
SG1A
- d. 6 & 7 JUL 90 (afternoon of 6 JUL through 7 JUL) to the [REDACTED] SG1A [REDACTED] Transfer will take place via a normal small boat ferrying small portions of the drugs at irregular intervals, almost as though they were waiting to get each portion safely hidden before risking being caught with another. This will be the [REDACTED] SG1A largest transfer and both ships can be caught at this time most opportunly by catching the small boat with the goods.
