SUMMARY OF INFORMATION

The vessel is currently (18 1200L May 90) located northwest of the Antilles at 67 21 N 12 33 W heading due NE.

The vessel is currently carrying contraband in the form of 5-6 kilograms of cocaine. The cocaine is located at midships just to the portside of the center of the vessel at the waterline. The cocaine has been molded into something brown, smooth and plastic. There was the impression that because of this it could not be smelled by dogs. To get the cocaine out the brown thing has to be destroyed/broken.

The cocaine will be offloaded to another vessel on 21 (if not then 22) May 1990 between 1800-2000L (our time).

The ultimate destination of the contraband is the mideastern United States.
