Pre-session Hunches (AVs): Image of stranded vessel

Date Summary Returned : 17 NOV 92

D. EVALUATION DATA:
Viewer's Estimate
Evaluator's Estimate

## E. SESSION SUMMARY:

SG1A The will move between the AM of 3 DEC 92 and the PM of 5 DEC 92. I still perceive the destination to be the airport south of CHICO, WA.

There will be both radio and visual communication when the is due west of POINT GRENVILLE, which is north of GRAYS HARBOR and the city of ABERDEEN, WA.

There is the concept of an enclosed body of water reminiscent of a lagoon or pond associated with the vessel. The water is almost black and I can see the reflection of a building with a square tower on the surface.

Perceived an U/I object during Stage I (see diagram below).

Approved For Retease 2000/08/08: CIA-RDP96/00789R001600 1980006-7 Suberglans.
