TASKER JT4-89-90 (02 AUG 90)

SG1A

Target:

1. Did/will an actual operation take place?
2. If so,
 - a. Detect and describe any associated activity.
 - b. Report any important times associated with the operation.
 - c. Report any important locations associated with the operation.
 - d. Are there any indicators which could help the analysts in their work on this target?
 - e. Give any other pertinent details you uncover.

Summary

A drug operation will occur in the early hours of 3 August 90 at approximately 0000-0200. ~~There will be an airdrop~~

A vessel and a plane are involved.

It will probably be an airdrop operation at $21^{\circ}25'N$ $71^{\circ}07'W$ (Grand Turk Island)

Within one half hour, a vessel will pick up the drugs which are possibly cocaine. There is a larger ^{cylindrical} metal, silver container involved. ~~with rounded sides, and~~

~~to way around~~

Indications are that there is much activity involved with this target. There is vague evidence of coordination ~~of a place to~~ meet through world-wide radio messages of a certain place to meet.
