

PROJECT NUMBER: 8806 (WRV Training)

SESSION NUMBER: 01

DATE OF SESSION: 880901

DATE OF REPORT: 880901

START: 1300

END: 1410

METHODOLOGY: WRV

VIEWER IDENTIFIER: 025

-
1. (S/NF/SK) MISSION: Access, describe and identify target (Terry Waite). His location and present situation.
 2. (S/NF/SK) VIEWER TASKING: Describe person, location and his present surroundings.
 3. (S/NF/SK) COMMENTS: There were no physical inclemencies noted. The session was conducted under good conditions in the Garden Room. 025 did verbalize in single words and short phrases. 025 obtained a good bit of data in describing the target person. Verbalizing is coming in more and more in each session. When asked for the name, 025 tried phonetically and had a successful try but analytically disgarded information thinking it was not pertinent. 025 seems to be comfortable with the methodology and relaxes as she gets into the sessions.
 4. (S/SF/SK) EVALUATION: 3

*Purpose of session was
viewer & facilitator calibration*
