WORKING PAPER

Project: 8963  
Date: 890524  
Viewer: 018  
Session: 01

SUMMARY OF INFORMATION:

1. (S/NF/SK) The site is a wide, open area of large rocky outcroppings at a land/water interface (see sketch, bottom of page 4). There is a structure present, but it does not appear to be important (to the session), in and of itself. The entire area was in semi-darkness at the time of the session.
2. (S/NF/SK) The site is composed of very tall, thin structures, and some very large, flat ones. The noises made by this place are deep "grinding" or "raspy" sounds which are indistinct, not perceptably loud, but carried over a long distance. The function of the site is the manufacture of specialized bulk goods. This manufacturing is a "clean" (non-polluting) industry. The product is specialized. The transport of the goods is also involved in the site functions.
2. (S/NF/SK) There is a small group of people wearing work clothes, similar to jump suits. One member of the group is wearing a hard hat. The members of this group appear to be caucasian, but have dark skin, and at least one has a beard and moustache.
3. (S/NF/SK) A man in a suit and tie is standing among the members of the group, speaking with them on a familiar basis (not formally, as a talk or lecture). He is important looking, a little taller than the others, has a very pleasant, deep voice, and is saying "what they are wanting to hear". There was an impression that he was talking to them about their futures, and also bringing news of political and medical importance.

GROUP OF PEOPLE (S4)

INT. Summary: SITS is a wide, open  
AREA AT A LAND/WATER INTERFACE. THERE  
IS A STRUCTURE PRESENT, BUT IT DOES  
NOT APPEAR TO BE IMPORTANT (TO THE  
TASKING/SESSION). THERE IS A GROUP OF  
PEOPLE, WHICH APPEARS TO HAVE A SINGLE  
PERSON AS THEIR "LEADER". THIS IS  
A SMALL GROUP. THE ENTIRE AREA  
IS IN SOME-DARKNESS.
