SUMMARY OF INFORMATION

NOTE: This was a search training exercise conducted using SOLO CRV. I took down the coordinates and progressed through stage 3, before entering stage 4 I did a "hot finger" dowse on a map of the US. I then went into stage four to obtain additional information about the target.

The target structure is in the southeast corner of Missouri near the border. The air is thick. The structure is big, white, gray, stone and old fashioned looking. There are rectangular and curving elements.
