~~Site involves ^{desert} ~~low~~ area with long
mountain/rock formations, including a~~

In this desert area is a manmade structure which ~~is not~~ ~~is not~~ I have not as yet successfully resolved. Something that has to do with it involves something to look involving people, cultural, etc. & may be rounded a dome like. Area may be set aside by man, as a "national park," or something.

There are many people concentrated here, associating with one another for specific purposes or purposes. White & warm colors (red & orange) predominate. The subject of this place involves the cultural & social milieu of the people. Reading, carving, interacting & significant diversity are important to the people at the site. Area manifests a sense of ~~low~~ low development non westernized, somewhat ^{suggestive of} pastoral or agricultural, + religious on a ~~basic~~ ~~level~~

This site gives a strong impression of place (like
Capetown, S.A. - in terms of terrain + cultural standard); a
Navajo Indian Reservation, for same basic reasons; or
Mesa, because of cultural aspects as well.
