SESSION SUMMARY

SITE: Dwellings carved into soft volcanic rock used by early christian monks from 4 A.D. to present time.

..... lots of AOL this trip with a tendency towards AOL drive. this site is unique in that it is comprised of man-made structures, but the gestalt is cave-like. Once locked onto the site there was a feeling of ghosts, spirits, religious, superstitious atmosphere. The entrance to these structures was very cave-like.... another interesting phenomena associated with this site was a brilliant blue aura that seemed to engulf the site and tended to act as a block.... there was a feeling of energy within this aura.... but not physical energy as such.
