SECTION II

This section deals exclusively with the accuracy of the information provided in this report only. Disregard any previous data or IES forms you may have already received when completing this section of this form. Responses are scaled from 0-4 utilizing the following explanatory criteria:

- 0 - Little or no correspondence with known or suspected components of the target site.
- 1 - Evidence that the proper target site is being described, however the information contains a mixture of correct and incorrect elements.
- 2 - Good site correspondence with several items recognizable or confirmatory in nature but some incorrect or irrelevant information is reported.
- 3 - Good correspondence with the target with unambiguous and unique information and relatively little known incorrect information.
- 4 - Data correctly fulfills tasking in a manner which positively enhances current holdings and operational interest in this site by reporting on heretofore unknown data.

11a - Geographic locale description, i.e., terrain, bodies of water, mountains, etc.

Information previously provided to you by this office pertaining to this target which may have initially been labelled erroneous, irrelevant or whose relevance could not be determined, been found to have subsequent importance? If so, please explain by noting the IES control number (if any) and the specific nature of the information that was previously discounted and the reasons for current reevaluation. Please use a separate sheet of paper for your comments.

N/A

Has information previously provided to you by this office pertaining to this target which may have initially been rated "Of Value" (or better), been subsequently found to be of a lesser rated reliability or erroneous in nature? If so, please explain by noting the IES control number and the specific nature of the information that was previously rated and the reasons for the current reassessment. Please use separate sheet of paper for your comments.
