Session Number: CRV-4

Date of Report: /4 OCT 86

~~Mission Status:~~

Technique Utilized: CRV

Source Identifier: RV-018

1. (S/NF/SK) TASKING: (See attached data sheet). Monitor briefed with CRV1-3 + ops officers previous comments re. difficulty of target. (Ops. officer seemed almost desperate at this point, trying to resolve the problem of what best way to target ~~as with ops~~ and how best to evaluate results (all due to the paucity of tasking ~~for~~ targeting data).

2. (S/NF/SK) SESSION: Session was unique, in that a ERV ~~team member~~ team member (cross-trained in CRV) was attempting a CRV session after a 4 month hiatus during which time he was participating in ERV training. Some seemed to be concerned (psychically) with an earthquake that was about to occur, and could not lock on to target. After a break, monitor switched cue from encrypted coordinates to "Other I." That seemed to "do the trick". Some had P.I. of exhaustion.

3. (S/NF/SK) Summary: Site has a number of "propped-up" flat, circular, thick, smooth things, ~~which are the main attributes of the site.~~ which seem to be the main attributes of the site. Site is offensive/defensive (all-"sam site") but, because of lack of immediate, real threat) is used primarily for training & VIP demos ("hi-tech show off").
