

I sensed a circular area  
& I sensed movement I sensed  
a structure, either man-made or  
natural. I think it was a  
natural structure used by man.  
I felt that at times I was  
underneath & I felt dirt.  
I sensed men moving about -  
walking, observing, over-seeing.

I sensed men inside. I sensed  
two important areas. The first -  
I sensed lighting coming from  
the floor. I sensed men being  
looked at. After they were looked  
at, they left. I sensed a  
second darker area. This area  
was deep down under. It was  
dark. ~~was~~ A few men met here.  
Plans were simple. I sensed  
simplicity - rough walls. No hangings,  
no papers, no maps. Nothing. Men  
met, and made fast decisions.  
I sensed that a small group  
of men made up a force. This  
force not well known even to the  
larger force and I sensed  
internal damage. I sensed  
a strike fast.

I then sensed an object  
that was rotating and  
moving backwards. I sensed  
moving backwards. The object  
sped and then the firing  
vanished. This object could  
not hit high altitudes but  
could hit fast. It was  
moving backwards.

I then sensed that in the  
future - this object looked better

gap bigger & I could see  
the ~~object~~ ~~was~~ ~~leaving~~.  
they were walking and  
leaving the area. Now, the  
object was working  
correctly and it was  
still not hitting high  
altitudes but it  
could reach out at longer  
distances.

I then sensed I  
was on a vehicle which  
reminded me of a  
train. I could see  
compartments & I could  
see a pouch or pocket  
that had something to  
do with a future event.

I sensed a change  
in the future and  
a man being elevated.
