Confusion.... "too much".... once again, things
do not want to come into focus. Everything seems
fluid and in motion, like fading in and out.
Unable to focus on any one image or perception.

IMMEDIATE RESPONSE:

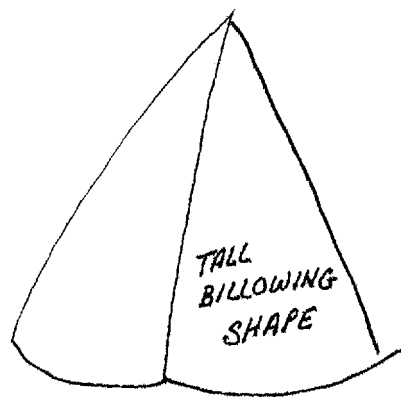

More of the same. Same as last weeks efforts.
Everything is in motion, swirling.... unrest, turmoil....
out of focus..... as if something is forming.... but
the cast, or die is not yet set. There is more of the
same, but more intense.
