E. SESSION SUMMARY:

The target has water, land, and energetics associated with it. The water seems to be very large; immense. There are endless waves. It makes me think of a large ocean. There are bird sounds and a food smell. It is very bright. I can see light reflecting off the water. The surroundings are warm, but my feet are very cold.

There are various shapes, see sketches, one is rounded and curved (an elongated pacman shape) which is green, horizontal lines which are either coiled or straight, and people shapes. The people are laughing, some of them could be children. It seems to be a pleasant place to be.

There is something organic that is soft and velvety-smooth. It is a large, rounded shape that has something in the center of it that seems to be the most important part of it. The sides of the thing are curved, clear, and almost see-through. It has a jelly-like substance and it moves. It has some kind of energetics associated with it. It is located under the waves, (possibly under the water). AOL: Jellyfish.

There is another shape that makes me think of a watermelon. Colors evident in this shape are green, red, and sometimes yellow. It is also an organic thing.
