UNITED STATES GOVERNMENT

memorandum

DATE: 12 December 1990
REPLY TO ATTN OF: DT
SUBJECT: Project SUN STREAK (U)

S-490/DT

TO:

1. (S/NF) The attached assessments focus on both the DB and DT-S responses to questions posed by the DD; the DB assessment of the DT-S responses; the overall assessment; and actions required to more fully evaluate the DB/DT-S inputs (enclosures 1 - 8). This process was designed to maximize objectivity and reduce/eliminate subjectivity.

2. (S/NF) Overall, the evaluation of the data presented is mixed. The accuracy of the assessment and the value assigned to the DT-S responses are, in some cases, inconsistent. In order to more fully evaluate the DT-S response, recommendations, where necessary, have been made at each enclosure for DB/DT-S follow-on action.
