Civil Air Patrol Calls Off Search for Student Pilot

The air, water and ground search for a student pilot missing over Maryland since Oct. 4 has been suspended, the Civil Air Patrol said yesterday.

Rosa Gonzales, 30, of Annapolis, was on a training flight from Annapolis to various spots on the Delmarva Peninsula when her single-engine Piper Cherokee was believed lost, some time between 2 and 6 p.m.

During her trip, she had landed safely at the Bay Bridge and Summit, Del., airports, then spoke by radio to the Dover, Del., airport and was seen on radar about seven miles north of Millington, Md., about 2:20 p.m.

Initially, the patrol received reports that she landed in Easton and had lunch about 3

p.m., but those reports couldn't be confirmed by witnesses, the patrol said. She was due back at Lee Airport outside Annapolis that night but never arrived.

The search involved as many as 24 aircraft, Coast Guard boats and people from local, state and federal agencies. Civil Air Patrol members spent more than 600 hours in the air, covering 7,000 square miles, from dawn to dusk, searching a two-state area as far north as Summit, Del., south to Crisfield, Md., west to the suburbs of Washington and east to the Atlantic Ocean.

Body in Bay Could Be Linked to Plane Crash

By JOHN WHARTON
Enterprise Staff Writer

After examining a body found this week in Chesapeake Bay near St. Mary's shores, state authorities were trying to determine if the dead woman was the pilot of a plane that disappeared last month while en route to Anne Arundel County.

"There is a chance, but we're not a hundred percent sure until we get the dental records," Dr. Margarita Korell said Thursday from the Maryland medical examiner's office.

The body, spotted Monday morning by a boater about two miles east of Spring Ridge, was that of a woman who had been dead for "several weeks," Korell said. Dressed in shirt and pants, the body was "basically whole," but decomposition prevented authorities from pinpointing the time of death.

On Oct. 4, Rosa Maria Tames Gonzales, a 30-year-old student airplane pilot from Annapolis, failed to return to Lee Airport in Edgewater with a 1973 Piper Cherokee during a round trip to Delaware. Investigators had concentrated their search for the plane and pilot in the Easton area, where the plane was scheduled to make a brief stop, and off Cove Point after a fisherman reported hearing a plane engine that day and a loud splash.

SESSION TASKING SHEET

Source No. _____

Date Task Initiated 16 OCT 91

Suspense Date { 17 OCT 91 - PHASE I

Task/Targeting No.: 91-17-P-E } 18 OCT 91 - PHASE II

Project Type: SEARCH (PROFICIENCY/OPS).

Targeting Method/Technique: _____

Target Data Desired:

1. DESCRIBE KEY TARGET FEATURES (include forms, shapes, spatial aspects, color, motion/dynamics):

- Emphasize the following: _____
- Do the following perspectives:
 - Ground-level
 - Overview
 - Other: _____

2. IDENTIFY KEY TARGET CONTENT (include meaning, purpose, function, nature of activity, type/nature of people, if present):

- Emphasize the following: _____

3. IF PERSONALITY, DESCRIBE: _____

④ OTHER: (or see attached) LOCATE MISSING PERSON

⑤ ADDITIONAL GUIDANCE: (see attached)

TWO PHASES ; SEE ATTACHED.
