START: 1012      END: 1123  
METHODOLOGY: WRV      VIEWER IDENTIFIER: 079

1. (S/NF/SK) MISSION: A threefold mission was launched against targets prepared by DIA (DT), specifically: Determine from a map of Beirut the exact location of the site where Terry Waite is being held hostage; Determine the future of the Ayatolla Khomeini with emphasis on the possible passage of power; and, determine the state of mind, reason for transfer, nature of influence, degree of self-contentment, and future roles of an individual of specific interest.

2. (S/NF/SK) VIEWER TASKING: As in Para 1.

3. (S/NF/SK) COMMENTS: Dr Vorona was present in the CRV room during the session. [REDACTED] observed the proceedings from the monitor room. The session was videotaped. No inclemencies were noted. Nervousness was kept in check as a result of a session previously held, monitored, and video-taped by program personnel. A summary of the results of the session is attached. WRV constitutes a new form of viewing methodology for this program. The conduct of several utility assessments related to person, places, things and events should be pursued, assessed for their accuracy and pertinency to the collection of foreign intelligence.

SUMMARY

KHOMEINI

There appeared to be some ~~confusion~~ related to a time frame of "two months" or "two years" related to Khomeini, and his ~~influence~~ on current and future events. Additional confusion was also generated on the issue of interest, ie, "Khomeini's ~~projected demise~~", and, "Khomeini's ~~passage of power~~." Based on data previously obtained regarding the anticipated release of Terry Waite from ~~captivity~~, the following ~~analytical conclusions~~ were made. Khomeini's personal ~~demise~~ will occur in about two years from now, ~~in~~ 1990. The passage of power from Khomeini to a substantially more reasonable group of ruling individuals will take place in about two months (APR 88). The results of a previous session conducted against Terri Waite revealed that negotiations would probably take place in May 88; Rudolf Cordes, German national, would probably be ~~released~~ from captivity in June 1988; Terry Waite along with two other hostages would conceivably be released in August; and Terri Anderson would also be released from captivity in (late?) August. Terri Anderson was described as the ~~physically weakest~~, and Terri Anderson ~~suffers~~ ~~from headaches~~.

TERRY WAITE

A search was conducted with the assistance of a detailed map on Beirut. The location of Terry Waite's current whereabouts were indicated in an area described as quadrant A and somewhat to

the left of a government building selected as a point of reference.

MR X 'B-R-E -- MARY' (from the Middle East)

Mr X is Middle Eastern political scientist, about 50 years of age, either from or somehow associated with Egypt. He has been ~~affected by events~~ (political power plays) to a ~~position of~~ secondary importance. He is ~~accustomed~~<sup>ed</sup> to good living and ~~enjoys~~ the ~~benefits of~~ political power. He accepts this demotion gracefully (without a sense of revenge) as an event affected by the normal stream of ~~political events~~. He is ~~preparing~~ or ~~assembling~~ some type of ~~it~~ apparently related to a ~~scientific and technical endeavor~~ the knowledge of which will be passed to the U.S. in about six months. The man is a ~~political survivor~~ who enjoys the support of a significant following. He will be ~~publicly acclaimed~~ for some ~~noteworthy accomplishment~~ in the future.
