C&D MAPS 33 DEGREES 30 MINUTES

Describe structure Higgins is in.

Higgins near water, man made landmark

He is being transported back and forth.

Black vehicle - changing cars.

Higgins is staying in a tall slender, old structure. He is in a small room approximately the size of a hotel, motel bathroom - small room within large structure.

Captors staying close to communication lines. They stay 17 miles from motel, hotel where captors can listen to communications.

Higgins was brought to very modern conveniences where video tape was made. Being shuffled back and forth, always shifting and scuddling.

He is angry, but will be able to cope. He has more of a grip on things now than previously

Higgins was brought very close to modern convenience when video tape was made. shuffled back and forth, always shifting and scuddling - close to water landmark.

He stay in structure that is modern.  
he is back and forth between isolation and modern structure.

He (Higgins) is angry. He has more of a grip on things now than previously.

Is not at castle - moving northward in 2 1/2 to 3 days.

Captors much more relaxed now - moving but not at fast pace.

CAR- smaller car, black or brown car, round back - looks like a sports car, can be taken as one, but it's not. It looks out of place in country setting. Stays well hidden in city.
