PROJECT SUN STREAK

WARNING NOTICE: INTELLIGENCE SOURCES AND METHODS INVOLVED

PROJECT NUMBER: 8805	SESSION NUMBER: 6
DATE OF SESSION: 880427	DATE OF REPORT: 880428
START: 1405	END: 1503
METHODOLOGY: SRV	VIEWER IDENTIFIER: 011

1. (S/NF/SK) MISSION: Determine the nature and scope of an event(s) of singular importance and interest to the US. Prior to describing the event and its significance, access and describe the military forces, diplomatic activities, and sociological factors of the society (ies) involved in the event.
2. (S/NF/SK) VIEWER TASKING: Reference your 19 Apr 88 session on the event designated by coordinates 681001/ 187811: Reaccess the explosion and describe the location and any structures involved. What caused the explosion? From where did it originate? Provide an overhead sketch showing the location of the land, the water and the explosion.
3. (S/NF/SK) COMMENTS: Viewer had some inclemencies.

*See POL Emanations
on page 4 -

SESSION SUMMARY

SG1J

COORD: 681001/187811

27 APRIL 1988

TARGET: EVENT/EXPLOSION

1705-1503

I can only describe the event as something man-made, perhaps a device or object in a vertical, downward motion, which results in an airy, billowy, upward motion (see sketch/ideogram, page 2 of session). There is an impression of green energy, not the color green per se, but a green energy such as atomic radiation, uranium, nuclear.

The ^{key} object/device is perfectly spherical surrounded by a metallic skin. Inside of this sphere is a very dense, heavy core which is surrounded by its own metallic skin. This core is under a tremendous, constant, equal pressure. If this pressure is increased or becomes unbalanced, the matter in the core can become very unstable (see page 3 of session).

The object comes from above, very high above, in somewhat of an arc (AOL-like coming from a B-29)

AOL - like an atomic bomb being dropped on Japan.

green energy (not color)

AOL Break

green energy - like
nuclear fission - like
atomic energy - uranium
radiation

blue-black

OBJECT/DEVICE!

core

core

energy

radiating

4½ - a spherical object with a metallic outer skin. There is some substance exerting a tremendous pressure on another metallic sphere which contains a very heavy, dense, dark substance. The immense pressure is directed inward on the core in such a way as to be absolutely equal from all sides at once and having the effect of condensing the mass of the core, making it denser.

Break
