Impression of large open, windy, cool area with water nearby.  
"large flat hard surface area "like" airtiled sort of place. Structures  
nearby; one is metal tall, w/ angles in it. Other bldgs nearby,  
one of interest. Inside it's dark, light, cool, warm, and has at  
least one room that is lighted, has a "filing thing" in it &  
a surface that is "like" a desk or table for spreading things  
out on which has paper on it visible now.

54 1/2 impression that "things" come "in" from direction & be changed into more useable form - not fundamentally altered, just made "better" for purpose. "Like" analog signal coming in, being digitized, then being sent on in a more transmittable, accurate format.

CITY old + new

imperial - like Capital City,

possible rubble of white walls; some classical architecture - i.e. columns, fluting, facade. Remnants of Pantheon or Temple of Mars or Venus. Remnants of Pantheon or Venus.

CITY WESTER

City feels West of river, which feels West of site

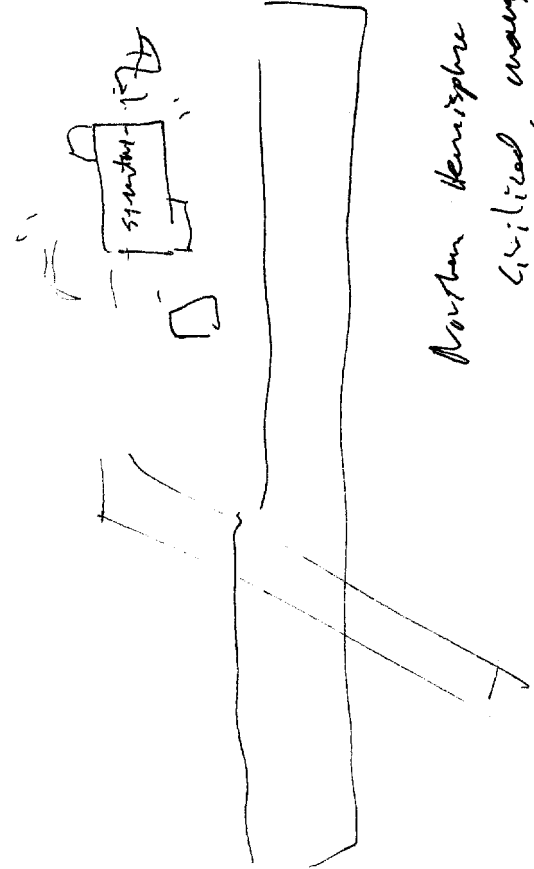

Bay

River

Per Book - Wash, D.C.

Some - ~~feels~~ European feel but seems Northern American + Eastern seaboard

side

Northern Hemisphere

Civilized, managed terrain

woods, hills, open areas, roads, bldgs, houses, and, with, clouds, grass, snails, busy; high level of intense activity

412 "Document" doesn't seem to belong to whom it used to. 2<sup>nd</sup> party from has it. Seems almost ~~as if~~ a report of something that was being or is being done/produced elsewhere. Elsewhere is some where along coasts over lots of water & land. "like" almost on the other side of the globe in a relatively hard to access place. It's almost as if someone has sowed some sort of coup by having this document/information in their possession.
