

~~SECRET~~/NOFORN - HANDLE VIA SKEET CHANNELS ONLY

PROJECT SUN STREAK (U)

WARNING NOTICE: INTELLIGENCE SOURCES AND METHODS INVOLVED

PROJECT NUMBER: 8728

SESSION NUMBER: 3

DATE OF SESSION: 12 JAN 88

DATE OF REPORT: 19 JAN 88

START: 1415

END: 1525

METHODOLOGY: SOLO

VIEWER IDENTIFIER: 003

no need

1. (S/NF/SK) MISSION: A sub-element of the overall mission, describe and sketch the location of a "hidden" classified document.
2. (S/NF/SK) VIEWER TASKING: See the accompanying follow-up tasking sheet.
3. (S/NF/SK) COMMENTS: Per 003, the AOL perception of "DIAC" was overwhelming.

~~SECRET~~/NOFORN - SKEET CHANNELS ONLY

SOURCE #003 SOLO MISSION 12 JAN 88

FOLLOW-UP TASKING ON TARGET COORDINATES 174301/868853

INSTRUCTIONS: Review your 02 Dec 87 CRV session (sans summary)

- Produce a detailed, large area Stage 6 rendering of the site; place structural elements in perspective (Use the sketch on page 12A as a reference).

- Indicate the particular structure in which the target document is located.

Summary.

Site involves a complex of structures bordered by a river to one side (west?) and by some sort of block to access (fence? wall?) on the other side. There are large, unused, very level flat areas/surfaces interspersed/adjacent to the structures. One main structure is of interest. It is somewhat centralized in relation to the land area of interest, has a roof sectioned into areas of differing heights, and is for the most part composed a complex assortment of rectangular shapes. Grey is a predominant and important color. It is within this structure that the document of interest is located. The other structures round about have a wide variety of purposes, none of which are directly related to the structure of interest, except for the impression of providing miscellaneous support functions. There are many widely differing "missions" or purposes accomplished on this compound. At the time of the session the area was cool, breezy, and had cloud shadows drifting frequently across the landscape. Far away across the river is a heavily built up urban area of no direct significance to the purpose of the session. A strong AOL or AOL/S of the DIAC continued to impinge. The site is either very familiar to setting/purpose of the DIAC, or it is the DIAC.
