begin sessions preparatin
sanctuary: coordinates

OK in movement trusting out forward coming best smooth
define circula area movement gen's on bank

✓ surroundings

open area up - him - clean area - outdoors
the street is big hard structure, quiet, ...

✓ street

quiet around the structure, long hard brown, business place
big but stands alone natural surroundings quiet
makes street quiet

✓ locate

man I looking at street - outside at side -

✓ where located

I've get to man back

walkway, routes & brown ground, street sits, differs
ways to enter it walkways, path

• trees grass parking nearby nearly in front, very blocks
off -

✓ inside structure - OK man working, sitting, hands up

the inside street... an area where men seem to be working,
meeting, talking together, old surroundings, very old surroundings,
high ceilings, a dampness, coldness, damp & cold very sparse,
almost empty, function old, nothing to make it pleasant,
street.

✓ meeting

men, heads together, they (hold on a min) talking,
eyes... meeting, vastness of space, vastness of space

time, time, time and concerning themselves
with occurrences that seem to involve complexity

them fiery ball moving that loses flaring - these
men - can see them very good - just see heads - then
hurry a part involved here - study the past - trying -

daily occurrences natural occurrences -
don't know why I can only see their heads -

There man - movement is the ball sputtery - spinning
Men who want to know who's going on - daily occurrence -

②

forecasting - trying to - I don't think they know the outcome.

looking at how fast ball - travel speed - pathway
to where it travels - speed.

✓ when is ball now?

it's spinning around - it loses as it travels - loses particles,
breaks off - red - no - hot green ball - it swoops
moves in sweeping motions.

✓ when do it travel

comes down, zig zags - up in the high, high high -
it towards high

then men that study have hard time placing them -
I don't know how they look at them, they -
seems they are close or very far away -
two different places. Study on paper

OK after ball moves - draw on paper when it moves -
hard time forecasting - draw on paper when green ball shows
afterward - unknown - men working with unknown

✓ green ball quite dark, navy blue, black or navy blue stage
or lighter than twilight dark.

✓ what are men worried about

- no controls no control they can only study after the fact
foresee hard or sit wait watch - situation although they
don't know it. They think they try but can only.

✓ watch what it will do

splits apart, or I can see it sub ways, ~~new~~ new form -

✓ does it affect people

hold on

yeah it does, emotionally, so what it, the landing -
uncertainty of landing - not know where the guy is land -
emotionally disturbance - physically could hurt - but didn't -
emotional concern for physical damage which never two plane.

✓ ball now

it took a very straight path - it went very straight

OK a straight up or down path -

③

- ✓ design game - think so
- ✓ what are men doing now

one man is very much concerned - ready ready,
 not must he can do - hes by himself - another greys
 smaller etc - don't need - they do work -

turning adjust specialists they don't have to
 answer to people - just try to same job thru
 turning working highly skilled specialist men.
 A public that needs to be answer to - not their job
 needs - making report news.

- ✓ when on earth struck

sunny, ... green leaves, large almon as by
 as trees green brown flat lands no mts but
 green,

- ✓ people near here

explor struck in inside -

gold steps move in circuit area up
 the struck is big empty can here you echo
 floors are square tiles - sometimes rightseely
 things to look at history - some try in part

- ✓ go part

I see ball again - that ball is thicker, rounder,
 nice to look at more beautiful ballance more in
 harmony prettier it changed -

- ✓ how did it change

many facts, things it change as cycles
 went by. Struck was noisier. The beginning.

- ✓ look around

I feel in a space, struck dark - floaty.

1344

- ✓ ask people who they are

they're working people, much brighter than we are -

- ✓ come from where?

He a dark place - warrior - a place mean
 warrior

- ✓ describe plan

now I see red - blood red - dark red -

there are dips - dipping like valleys but it's funny

④

crater. Darkness associated with area - red green,
blue may blue - I can leave or I can go into space
all leave?

✓ some men did leave, but why don't I see women
or children?

✓ look beneath.

now there is the beam - climbing down on it but
the men who the world explains - trying to save
an area - natural occurrence - it was a big shake
that could have altered area - but men extremely
serious - ~~the~~ wear something over heads ears -
trying to preserve - reaching from beyond current
area to bring things back into work

✓ women & children

stay together babies not born but they used to
be - at one time - this plan because of location
was always rather dark but better off in fact than now -
people very very very serious Ed - of tooth people
in time survivors - must be seen in order to
survive - look fairly - other plans

✓ Just men & children

in cave - area - little holes!
down in holes - light ~~be~~ gleaned through
small, tubular don't know how they live -
depend on natural resources - don't see any food -
natural resources - what talk really down

- describe them - women & children

men white faces, thin tall angular noses, ears,
sharp - the women but you see skin smooth shiny,
Women dress with some wrap around them -
men skin suits so close to skin & not admit sun -
some all blue eyes - although men - more different than

women

has an tube beam

Tubes not many - counted

(5)

babies look alike - dinosaurs

✓ can we help

they need a gun stuff

✓ how can we help them

1350

by pay close atten to universe - knowing that
existence is everywhere - Down the life that
that essence exists everywhere - We We
We are stupid - we can help by talking to them -
communicating.

✓ when

Caves - meet them in dark places in wilderness
is caves - they have dark caverns but nice -
white lights - every some ~~that~~ - that is good -
so many things so small yet different -
man is pointing to maps Pink North -
to NE rocky areas Big rocks -
caverns caves - exchanging greenery
he says that they can when something on back
(?) its so they can -

✓ come how?

What prep. needed - but before - been here before
by the ago - was it needed > to when we are now.
What gets mad - something about person envir. impact.
- lagging behind.

✓ live - sleep

big rock - by flat rock - walking study soil -
men are talk the we learn them - he would like to
come for an exchange > NE > core of earth
inside > changing > when it change most dramatically
they will visit.

✓ fossils why?

Just take green now, steaming,
became smelly and the fossils - give off the rays
fossils... so feels sorry for them - then busy

⑥

- ✓ they are brilly, smart > it's
- ✓ they must allow to help on they will be -
One man knows, other know - more superior >
more superior, they don't like to deal with inferior ones
- it's hard time - has me be agree -
- ✓ Tell him we will do anything need to help.

look the vaccuums in earth - pockets
that's where they will be.
