4 1/2 Standing naked on a high flat ledge or top of a butte.  
Alone, nothing for miles. Looking up into the sun, the sun  
seems so very large --- it takes up half the sky. Above is an  
eagle soaring --- very close --- can hear the cry of an eagle.

Not aware of surroundings --- only of the sun  
and the eagle spirit.

4<sup>1/2</sup> - this structure is rounded, somewhat circular, flat  
on the outside. The inside is round, circular, but it is flat and angular,  
at the same time. The material is hard, solid, but somehow  
transparent when it wants to be. Looking out through the vehicle  
from the inside you can see the night sky. Very clean, sterile  
inside.... no doors, knobs, seats... nothing... absolutely bare, empty
