E. SESSION SUMMARY:

Site has a structure that is very large and square. This structure has openness to it. The site has long pointed objects on top and on the sides it has circular or rounded objects. It looks as though the structure has columns. The structure is artistic and creative.

It can get busy at the site. One can see women, men, and children.

The site has blue, gold, green, and some white to it.

This structure is old. I sensed a past history associated with it.

Communications are associated with the site.

I kept getting the feeling of "reflection/reflecting."
