

21 April 1978

MEMORANDUM FOR: Members, Industrial Contracts and
Industrial Security Task Force

FROM: 
Chairman, ICIS Task Force

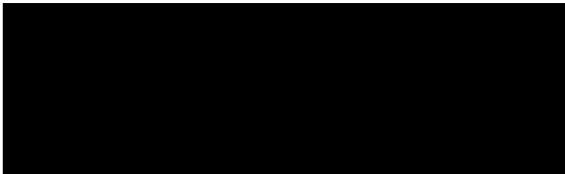

25X1A

SUBJECT: Follow-up Report on Task Force Report (U)

1. (C) I thought you would be interested in a follow-up report on our Task Force Report. The EAG met on Tuesday, 18 April 1977, to review our recommendations. They spent about an hour and a half focusing primarily on recommendation No. 1 having to do with the pros and cons of dual delegation of authority. The discussion was spirited and I believe useful. The EAG members seem to be split regarding the adoption of this recommendation although the DDCI, who chaired the meeting, seemed to favor a single delegation of authority. No final decision was made on the issue pending further written comments by some of the EAG members.

2. (C) At the end of the meeting the DDCI did indicate that the security recommendations should be approved.

3. (C) Comments by EAG members prior to and after the meeting were complimentary with respect to the report. It is my impression that our recommendations will be adopted after further clarification of the implementation of recommendation No. 1.
