PROPOSED DIRECTIVE

INTERIM PROVISION FOR THE COORDINATION OF THE COLLECTION  
OF FOREIGN INTELLIGENCE INFORMATION THROUGH  
EXPLOITATION OF AMERICAN BUSINESS CONCERNS,  
NON-GOVERNMENTAL GROUPS AND INDIVIDUALS  
WITH CONNECTIONS ABROAD

1. Under the provisions of N.I.A. Directive No. 5, the Director of Central Intelligence is charged with acting for the National Intelligence Authority in coordinating all Federal foreign intelligence activities related to the national security to ensure that the over-all policies and objectives established by that Authority are properly implemented and executed. Under this responsibility the Director is charged with the coordination of the exploitation of all sources of foreign intelligence information required for the national security.

2. Pending a complete solution of the over-all problem of exploitation of sources, current circumstances require that an interim action be taken with regard to the particular source represented by American business concerns, other non-governmental groups and individuals with connections abroad.

3. The following policies and procedures relating to the collection of foreign intelligence information required for the national security, through exploitation only in the United States of American business concerns, other non-governmental groups and individuals with connections abroad, are announced:

a. The Director of Central Intelligence will establish uniform procedures for:

(1) Securing the cooperation of American business concerns, other non-governmental groups and individuals with connections abroad in supplying such foreign intelligence

information required for the national security as they possess, acquire, or can assist in obtaining.

(2) Insuring the security of the information procured and that the interests of those cooperating are not jeopardized.

b. The Director of Central Intelligence will establish and maintain, on a current basis, as a part of the Central Register\*, a contact register\* of all existing and future business, group and individual contacts, from which clearance must be obtained by participating agencies before new contacts are approached.

c. The Director of Central Intelligence will establish standards for security clearance of contacts by participating agencies, which shall include consultation with the Federal Bureau of Investigation on the advisability of contacts of other than American business concerns. Results of security checks will be furnished to the Director of Central Intelligence for incorporation in the central contact register to avoid duplication of effort.

d. The Director of Central Intelligence will coordinate the exploitation of this field on a nation-wide basis. Coordination will be effected by the Director of Central Intelligence through the heads of the intelligence agencies concerned. C.I.G. field representatives will establish and maintain liaison with the Intelligence Officers of local headquarters of Army areas, Naval Districts and Air Forces, if present, through the medium of local inter-agency offices.

e. The Director of Central Intelligence will establish procedures for the dissemination of information collected by participating agencies.

f. The Director of Central Intelligence will establish procedures for the procurement of information by one agency for another.

g. Any briefing of private individuals going abroad temporarily, as to foreign intelligence information required for the national security, shall be performed by the agency making the contact. If agreeable to the contact, a representative of the Central Intelligence Group will participate. Departmental intelligence agencies will submit their requests for such information to the Central Intelligence Group. When required and available or upon request by a participating agency, technical specialists furnished by the participating agency will take part in the briefing.

4. It is not the intent of this directive to affect in any way the authorized relationships of Federal departments and agencies with American business concerns, other non-governmental groups and individuals for purposes other than the procurement of foreign intelligence information required for the national security. The National Intelligence Authority recognizes the primary responsibility of the Department of State to protect and promote American foreign trade and also recognizes that the Department of State must, to that end, maintain contacts with American business concerns and other non-governmental groups and individuals engaged in foreign trade. The National Intelligence Authority recognizes the primary interest of the Federal Bureau of Investigation in Foreign Nationalities Groups in the United States in fulfilling its statutory responsibilities for the internal security of the country. In order to preclude disturbance of these Federal Bureau of Investigation sources, the Central Intelligence Group will be the only agency authorized to exploit Foreign Nationalities Groups for foreign positive intelligence and this only after consultation with the Federal Bureau of Investigation in each case.
