Dr. GSIEDER then explained why he had referred SJAKOBSEN to "CLASSER" by noting that the measine * AFRIKA INITSCHRIFT Numich 23. Biegfriedstrasse 5 Telephone 33.68 75 is an UPHILL sponsored project. SEERIONER and "CLASSEN" are responsible for the publishing of "AFRIKA" and only a few thousand copies are printed each month. Necessly Dr. ASIENER ran into an acquaintance of his who speaks Afrikaans and who is employed by "AFRIKA." By careful questioning, GRIENER established that this acquaintance is apparently not sware that he is working for UPHILL 4. Should any evidence of UPHTLL visits to Africa become apparent to any addressees, we would appreciate being notified.
