MEMORANDUM FOR: Deputy Director (Administration)

SUBJECT: Directive of 19 December 1953 to Senior Representative, Germany

1. I am enclosing a copy of a directive to General Truscott which was signed by the Director in December. The provisions of the directive and the attachments were discussed by the Director with General Truscott during the course of his visit to Washington. The directive provides terms of reference for the activities of the German Mission for the immediate future and generally provides that General Truscott and his staff will undertake a review of all CIA activities currently conducted in Germany with the view to determining which shall be respectively continued, modified or eliminated. Certain general criteria to be applied in determining the foregoing are set forth in the body of the directive.

2. Annex B is purely concerned with the review of clandestine operations in and from Germany and is of little general interest. I should be glad to discuss the directive with you at your convenience if any questions occur to you after you have had an opportunity to review it.
