

MONTHLY REPORT
 NHA - TRANC
 DECEMBER 1969

GENERAL

All U.S. Military facilities on our side of the airport are now closed. Eating facilities have vanished in this area. Breakfast is now being taken at the "Neptune" MCC Club and we have obtained refrigerators for Sodas, Sandwiches and Doughnuts sold to flight crew for lunch when desired. The only remaining alternative would be to transport crewmembers to the other side of the airbase for these meals. Presently we are investigating the possibility of having someone operate a Snack-bar in the area. More will be known by the next report time.

No military incidents occurred this month.

TRAFFIC

Another slight decrease in revenue flying time this month due to the CRANTON schedule, inclement weather, and loss of one DC-3 from this station. (See statistics)

CUSTOMER RELATIONS

Customer relations continue to remain good to excellent with few problems occurring.

OPERATIONS

A. COMMUNICATIONS : VHF and HF are still causing problems. Our Motorola unit has been cut due to a burned out resistor fan motor. We are unable to "Jury Rig" a suitable replacement as yet and must depend on the back-up unit until the new unit arrives. The new 60' multi-directional antenna will be completed in January and should resolve most of our communication problems.
