December 5, 1944.

To: Captain Jan Laverge, MELANIE Mission.

1. This is not a report but just to keep you au courant of the present situation. Last night, with Kitty's assistance, I talked to all of your men at Milwaukee. Two of them, ~~\_\_\_\_\_~~, are leaving presently for W/T exercise in Scotland and will be back on December 14. It seems to me that these two men would make admirable companions for the two Rabbit boys and I am therefore planning to "marry" them at that date; in other words, these two men, plus the two Rabbit boys, will begin a course of instruction at Area F on or about December 14. After this course has been completed, there will still be time to send the two W/T's for parachute training. As for the remaining W/T's, there are no plans at present - particularly is this true of ~~\_\_\_\_\_~~, whom the Labor Desk is still considering as a possibility.

3. Have just cabled you for your opinion on Patriotic School and also to suggest that you come here before the beginning of the next moon period, at which time we hope to despatch the Peter team.
