MEMORANDUM FOR: Colonel T. C. Pinckney
National Security Council
Executive Office Building

SUBJECT : GNP Data for the USSR, Communist China,
North Korea, and North Vietnam

Attached are four tables which present the GNP data you requested on the USSR, Communist China, North Korea, and North Vietnam. These figures are to be taken as "rough estimates" especially in the case of the three Asian countries. They are presented to three or four significant digits, but this is only to facilitate subsequent calculations. It should be noted that the GNP of North Vietnam is supplemented by substantial quantities of military and civilian goods furnished by other Communist countries.
