G Bamaca Case

We have been in touch with people at NSC, State, and Justice several times during the past week to discuss recently acquired intelligence in the 1992 murder of guerrilla leader Efraim Bamaca Velazquez.

You may tell SECSTATE that we believe a demarche to the Guatemalan President can be delivered.

You may also tell SECSTATE that we intend to brief our intelligence oversight committees as soon as possible. NSC has suggested that this be a joint intelligence-policy briefing, which is fine with us.

You will recall that the wife is a US citizen, who has held several high profile meetings with US officials to discuss the case.
