

HEADQUARTERS SEVENTH ARMY
G-2 STRATEGIC SERVICES SECTION
APO 758 US ARMY

1 May 1945

SUBJECT: Dede
TO : Major Wentworth

Since Major Coleman will likely go through London would it be possible for him to go and see DEDE at the hospital and have him fill out the attached questionnaire, returning it by pouch to us? This would solve our present problem.

As I cabled you today we have no information as regards the number of missions he accomplished or any other details which are necessary to base the citation upon. Unless Jeff Carre or Capt. Bernuth can supplement same, it will be necessary also to refer this to Dede because he may, in certain instances have referred the result of his accomplished missions to the Division or Regimental CP's.
