TO : Lt. Jarvis

Pvt. Sebba just informed me that you had instructed him to come up tonight to the station which you are in charge of. While we have no objection to your using Sebba, in view of the unfortunate accident which happened up the hill, it seems to me unfair to the man to ask him to take care of a matter which is "anything" but Briefing. It is my understanding that prior and pending departure on a mission many people up the hill have had a good time and I feel certain that you will appreciate the situation though, of course, the responsibility is all yours
