1. PBSUCCESS project headquarters foresees a need for subject materials in the execution of PT-17 and in fulfillment of the objective to "discredit the target at home and abroad."
2. It is requested that Hqs. and Guat Station begin a search for signatures and photos of target officials, especially those of cabinet level, the army, labor leaders, and the police, whom we consider obstacles to PBSUCCESS. Also needed will be bonafide samples of target CP membership cards, letterheads of leftist groups, specimens of target postal cancellations in the form of rubber cachets, and a supply of target postage stamps along with weight/rate information.
3. It is further suggested that these materials be assembled at Hqs. and that LINCOLN be sent an inventory of materials available, in order that we may prepare (with Ramon's aid) drafts of the proposed artifice, forward them to Hqs. for reproduction, whence the finished product can be returned to LINCOLN or otherwise sent on its way.
4. As the initial job, it is suggested that Hqs. produce an original and 100 photostats of a target CP membership card issued to the Chief of Police of the target country. This CP card would be exploited through CEUA, EL REBELDE, CEUAGE, FAGE, EL COMBATE, and possibly through other media.
