1 April 1953

Memo for DCI from WH

Ship and crew are fully prepared; accurate reconnaissance of caching and alternate sites has been completed; all precautions have been taken and preparations made for safe, secure caching and pick-up.

Rufus' men are in place. Cash is available in proper currencies. Activities of other groups are providing excellent smoke-screen.

Delivery of other materiel is scheduled for 2 April

Recommend caching run start 3 April. Outbound run will take 24-36 hours; caching 12-36 hours. Pick-up and delivery will take 48-96 hours. Fanlike will ostensibly arrive from Mexico and D. R.

Estimated that Fanlike will not be effective until 3 weeks from time of delivery, due to necessity for training and delivery to using units.

Delivered 1130. 1 April
