INFO: PESUCCESS, Headquarters

LINCOLN

Operational

1. ESSENCE reports: "Maria Cruz left around a week ago for Honduras. She did not mention this trip to any of the group, nor is it known how she went. ESSENCE states that she is valient, etc., but is also given to considerable talking, and for that reason is dangerous.

Her husband (or man) is Oscar Luna of the Comite Obrero. Luna is a very good friend of Moran Batres. Luna now states that he wants to go to Honduras to see what his wife is doing over there, and what's going on. The group has told him that they have no connection with Honduras, nor do they have any money to give him so he can make the trip.

Should this man reach Honduras he should be watched, and if he picks up any information while there, perhaps he should not be allowed to come back until later. Possibly the same with Maria Cruz, in view of her talkitiveness, if she has learned anything that could be dangerous."

2. Please pass this information to CALLIGERIS.
