CLASSIFICATION

Dear Juan Jose,

The two bits of information from [] dated the 25th are of interest. In view of the fact that the big boy is ill and may be forced to leave the country, it is important that we have as much information as possible on the Number 3, who you say is a close friend of Carmen. It is requested that you forward as much data as you can obtain, including of course his identity and his leanings.

Also, with respect to the Col. who works for Tia's Imprenta, the most important factor to bear in mind is what kind of a system he or his collaborators will set up to run things in Francisco once they are gone. It is requested that you follow up on this matter and send all pertinent data you are able to develop.
