Dear Andres,

The information in our previous communication is the only unfavorable data which we have in our files. It was obtained from the Tia branch jefe of Francisco's biggest source of income. There was no additional information provided which would add anything to that which you already have.

It is requested that you investigate this matter thoroughly, and that the subject's contacts and activities be checked as carefully as possible. It is entirely possible that the report has no basis in fact, but we should take all possible precautions. Our Tia office will be asked to follow up on the matter.
